PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with 2+ years of experience designing and building scalable, responsive web applications. Proficient in React.js, TypeScript, Redux Toolkit, Node.js, Express.js, and MongoDB. Demonstrated expertise in component-based UI architecture, RESTful API development, JWT authentication, Role-Based Access Control (RBAC), and performance optimization. Experienced across the full Software Development Lifecycle (SDLC) with strong collaboration and delivery skills.

CORE TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs, Prisma ORM, Laravel

Databases: MongoDB, MySQL, PostgreSQL

Tools & Concepts: JWT Authentication, RBAC, Google Maps API, Git, REST API Integration, SDLC, Agile

PROFESSIONAL EXPERIENCE

Software Developer – Malpani Group

Feb 2024 – Present

- Developed frontend-heavy, production-grade applications using React.js and TypeScript with reusable, scalable component architecture.
- Implemented Redux Toolkit for centralized global state management across ERP and workflow-based systems.
- Designed and consumed RESTful APIs using Node.js and Express.js for seamless frontend-backend integration.
- Implemented JWT-based authentication and Role-Based Access Control (RBAC) for secure, granular access management.
- Optimized UI rendering performance and backend query efficiency, reducing load times and improving user experience.
- Collaborated cross-functionally with design and backend teams, managing feature delivery throughout the full SDLC.

Junior Software Developer (Intern) – Anvi Software Solution

Dec 2023 – Feb 2024

- Developed a live production website for OM Law College using Laravel, MySQL, and Tailwind CSS.
- Implemented dynamic content modules and ensured fully responsive, cross-browser compatible UI across devices.
- Live Project:** omlawcollege.edu.in

KEY PROJECTS

Event Tracker Application | React.js · TypeScript · Redux Toolkit · Node.js · MongoDB

- Built role-based dashboards and multi-step approval workflows enabling end-to-end event lifecycle management.
- Implemented punch-in functionality with automatic GPS location capture, timestamps, and media file upload.
- Integrated Google Maps API for real-time location tracking and geographic event visualization.

M-ERP – Enterprise Resource Planning System | React.js · TypeScript · Node.js · Express.js · MySQL

- Developed core ERP modules including gate-pass management, finance workflows, and access control.
- Implemented secure RESTful APIs with RBAC-based authorization to enforce role-specific data access.
- Improved long-term maintainability by building a library of reusable UI components across the platform.

EDUCATION

Master of Computer Science (MCS)

Savitribai Phule Pune University | 2022 – 2024

CERTIFICATIONS & ACHIEVEMENTS

- React – The Complete Guide (Next.js & Redux) – Udemy (2025)
- Best Programmer Award – College Technical Festival, Savitribai Phule Pune University
