

AKASH DIGHE

Full-Stack Software Developer

Sangamner, Maharashtra, India | +91 93703 31608 | akashdighe2205@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack / MERN Developer with 3 years of experience architecting scalable RESTful APIs and responsive React interfaces for enterprise ERP and mobile-backend systems. Proven track record of cutting API response times by 30% and accelerating feature delivery by 30% through optimized database indexing, reusable component libraries, and secure JWT/RBAC authentication. Skilled at translating cross-functional requirements into production-ready, high-performance full-stack solutions within Agile/Scrum teams.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, Redux Toolkit, Hooks, Component Lifecycle, State Management, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend & Databases: Node.js, Express.js, RESTful APIs, MongoDB, MySQL, PostgreSQL, Database Indexing, Query Optimization, Mongoose

Auth & Security: JWT Authentication, Role-Based Access Control (RBAC), Secure Middleware Design

Tools & Practices: Git/GitHub, AWS EC2, Postman, Swagger, Webpack, Vite, Agile/Scrum, Performance Optimization, CI/CD Basics

PROFESSIONAL EXPERIENCE

Full-Stack Developer — *Malpani Group, Sangamner, Maharashtra*

Feb 2024 – Present

- Architected backend modules for an enterprise ERP system in Node.js and Express.js, eliminating manual workflows across 3 business units by delivering an end-to-end automated platform.
- Engineered and optimized RESTful APIs with custom error-handling middleware, cutting average API response times by **30%** through refined data models and query tuning.
- Implemented JWT-based authentication and Role-Based Access Control (RBAC), securing enterprise dashboards through granular, role-level data isolation.
- Refactored frontend architecture using React.js, TypeScript, and Redux Toolkit, building a reusable component library that shortened feature deployment cycles by **30%**.
- Optimized MySQL, PostgreSQL, and MongoDB schemas and queries, reducing server-side payload size and improving overall query performance.
- Coordinated Agile Scrum deployments on AWS EC2 with cross-functional design and QA teams, improving release reliability and reducing component render latency.

Junior Software Developer (Intern) — *Anvi Software Solution, Remote*

Dec 2023 – Feb 2024

- Built full-stack features for a live student/faculty portal in Laravel, MySQL, and Tailwind CSS, supporting consistent daily production traffic.
- Delivered cross-browser-compatible, semantic UI components with dynamic JavaScript layouts across mobile and desktop.
- Maintained Git/GitHub version control workflows and participated in peer code reviews to uphold code quality standards.

KEY PROJECTS

SaleSwift — Sales Management Application | Node.js, Express.js, MySQL, JWT, REST APIs | [Google Play](#)

- Built secure, JWT-authenticated RESTful APIs for Inventory, Sales Attendance, and Order Management, powering a production mobile sales app.
- Designed location-based APIs using real-time GPS data to enable efficient dealer/store routing for field sales teams.

Event Tracker Application | React.js, TypeScript, Redux Toolkit, Node.js, Express.js, MongoDB, Google Maps API | [GitHub](#)

- Automated multi-stage approval workflows with a Node.js/Mongoose backend, enabling real-time event tracking and reporting across departments.
- Integrated Google Maps API into React components with Redux Toolkit state management for live GPS rendering and historical route tracking.

Malpani Business Portals | React.js, Node.js, Express.js, MySQL, Redux Toolkit, Tailwind CSS | [Live](#) | [GitHub](#)

- Built a multi-module commercial backend for Courier Management and a high-frequency Property Transaction portal, securing routes with JWT interceptors.
- Developed analytics endpoints generating dynamic Excel/PDF exports for business reporting.

EDUCATION

Master of Computer Science (MCS) — Savitribai Phule Pune University | 2022 – 2024

Bachelor of Computer Science (BCS) — Savitribai Phule Pune University | 2019 – 2022

CERTIFICATIONS & AWARDS

- Best Programmer Award, College Technical Festival — Savitribai Phule Pune University
